

The ever-helpful staff of Esprit Displays.

Esprit Displays

ESPRIT DISPLAYS is a total home improvements company operating from our showroom on the Mijas Pueblo road (next to the Peugeot garage) for the last 10 years.

However, we are under new dynamic management, run by Sheldon Mednick and Tony Johnstone, with more than 40 years experience in the home improvements industry.

Our product range includes, awnings (auto or manual), persianas (shutters) for doors and windows (both auto or manual), glass curtains, double glazing, UPVC or aluminium windows, blinds – vertical, venecian, roman, pleated etc, UPVC guttering systems, a unique mosquito screen system in all colours, kitchens and bedrooms, rajas, gate, windows etc.

We also offer a very cost-effective repair service which is very worthwhile for the property rental market.

We are very excited about our new Warmwave Heating System that reduces electricity bills by 70%.

A free site survey and no obligation quote service is offered and we wish to stress that all our installations are, without fail, to the highest standards and guaranteed for up to five years.

Come see us at our showroom in Mijas.
